### President's Report - Hughie Gaynor

At long last the cold chills of winter will be replaced with warmer/longer days and the past cold weeks will all be a memory in the next few weeks. Hopefully this will give us all the opportunity to really get cracking to finish off those toit's. In case you think I am talking Irish I am referring to those woody jobs that you have promised to complete for both gifts for your family and friends, and the November 7<sup>th</sup> Toy and Gift presentation but, alas they are still waiting until you get around to it.

Thanks to all who turned up at the last **Working Bee on Saturday 11<sup>th</sup> August** which unfortunately turned out to be one of the coldest wet days. Whilst the jobs that were planned had to be postponed Plan B was initiated with the result that all areas of the Club got a really good tidy/clean up which made life a lot easier for the **Be In It** competition 2 weeks later.

On the subject of the **Be In It Competition** it was pleasing that the number of members and the volume of items submitted for judging was greater compared to the past 5 years. Congratulations to all members who supported this competition which made the Judges' work selecting winners that little bit harder as they commented that the quality of entries keeps on improving. A full listing of categories and the worthy winners is on Page 4 of this Newsletter. At relatively short notice it has been announced by Council that the **Rowville Stringybark Festival** which formerly has been held on both a Saturday and Sunday will be reduced this year to Sunday only between 10am and 4.00pm. In light of this unexpected announcement a great deal of discussion has been undertaken at Committee level and the following major decisions have had to been made to adjust to the new scenario.

- The Club will man the event selling **Kidz Korner** kits only on Sunday 21<sup>st</sup> October.
- The traditional **raffle** will now be downsized accordingly and will be restricted for tickets to be sold by members to their family and friends only. It should be particularly noted that 7 prizes will now be offered and that the raffle will be drawn in the Clubrooms on Wednesday 5<sup>th</sup> December at 8.00pm.
- Due to a number of yet to be resolved issues relative to accessing the site the **Club will be closed on Saturday 20<sup>th</sup> October** to facilitate members own transport arrangements to take Club gear to the site which unfortunately will mean that the Club will not be open for 2 consecutive Saturdays as the 13<sup>th</sup> October has been allotted as our next Working Bee.

**Invoices for annual Membership Fees** along with Raffle tickets are normally available late August/early September, however, their

availability this year may be a little delayed awaiting the printing of the new Raffle Books (as detailed above), but, should still be available in the 1<sup>st</sup> week of September at the Clubrooms. Your co-operation in picking them up is appreciated which will reduce postage costs and don't forget that if you wish to vote at the **AGM** on Wednesday 3<sup>rd</sup> October you must be financial by that date.

**Nominations for Committee.** The old adage of "many hands make light work" applies to the ongoing efficient operation of our Club and I would encourage you to give some serious thought to "having a go" as this year 3 current members have decided to give others a go after years of service and will not stand for re-election. If you have any queries please see me or any Committee member can answer any queries you may have.

..... *Hughie*

## Newsletters and important news by email

**please let us know if you've changed your EMAIL address**

Always check your SPAM, Clutter, Trash and JUNK folders.

Send **Harry Deschepper** ([secretary@knoxwoodies.org.au](mailto:secretary@knoxwoodies.org.au)) a request for **Eric/Gary** to update your email address / records

**If technical issues, call Gary: Ph: 0408 994799 anytime!**

## Typical questions about joining the Club

The many emails/calls we receive enquiring about what is involved in joining the club. Some usual questions are:

- **Can we teach?** No. we can't, we are not allowed to. But we share a great lot of experience with fellow members.

- **Are there female members?** Sure are – we have plenty. Age, gender, occupations and team preferences are of no issue with 'Woodies'. We're just crazy about wood!

2015 count we had 25 fine female members out of the overall 200 at the club. We've seen a 50% increase in recent years of female members, when overall growth was 25%.

- **What age groups come?** Well, our Secretary has worked out some nice statistics on that. 29% are aged 45-65, 43% are 65-85. We have some younger, and older! So there's a wealth of enthusiasm, and experience here!

- **How do I find out about what the club is like?** Drop in on a meeting night (1<sup>st</sup> WED of the month 7:15PM) or when the club is open. We love showing visitors how to become members! Refer NEWSLETTER last page for open times.

- **How much does it cost**

Latest Joining fee/membership fees are on website. Presently (2017-18) **\$100 pa (due 1<sup>st</sup> Sept)**, with 50% discount after 1<sup>st</sup> March if a new member, **PLUS** a one time \$50 joining fee. Late fee of \$10 applies after 31<sup>st</sup> Oct, and failing to renew by 30<sup>th</sup> Nov requires another Joining Fee of \$50 to be paid..

- **When do we meet?**

Refer to the last page of latest newsletters to see the times the club is open for all the activity groups. But members are also welcome to use the workshops whenever there are two or more keyholders/competent machine user attendees (for safety reasons), to undertake their own projects, but courtesy suggests that priority is given to the activity groups on 'their sessions', to allow them to progress Club works.

## Got some NEWS to share with other members?

If you have any articles, project notes, humorous items to share with fellow Woodies – just drop us a line!

Editor contact: [news@knoxwoodies.org.au](mailto:news@knoxwoodies.org.au)

**We thank Nick Wakeling MP**  
**- Member for Ferntree Gully**  
**for printing our newsletter as**  
**a Community Service**

## Toy and Gift Making Group

TOY COUNT for XMAS Presentations: count: 233+

Learn more about what this fine bunch of toymakers gets up to, in the [May 2018 edition](#) of "Ingrained".

Toy/Gift Making or the preparing of kits in [Kidz Korner Group](#), are both great for 'those looking to practice new skills' at woodworking. Keep in mind if you've a spare few moments! ...Ed.

## Member's Birthdays – SEPTEMBER

**The very best of Birthday wishes to these members.**

Hope you have a top day, and enjoy the year ahead!

... Ed!

Member	day:
Lynette Hartley	2
Kylie Haymes	3
Phillip Spencer	5
Ryan Daly	5
Leigh Howes	6
Theo Kusters	8
Malcolm Hill	9
Gayle Dowling	14
Peter Whitehead	15
Campbell McKillop	17
John Thomson	20
Jason Kitchingman	24

## Member's Welfare

Let's hope all goes well for any of our fellow Woodies, who may be unwell. Please advise Committee, so that everyone is aware.

**Eric Butterfield** presently in Rehab after removal of a benign item gladly. **Colin Stewart** is planning a hip replacement plan presently whilst busy with his wife's (**Pauline**) recent knee replacement. And it was terrific to see **Joe Seminow** visiting the club recently!

We're all thinking of you, Woodies!

[... Ed]

## Social Committee Events and Enquiries

Members with SOCIAL group ideas, please Contact:  
**Jeff Smart** 0409 251063

## Bill's Website of the Month!

**Bill Ireland** and like-minded Woodies who like sharing information from the web.

If you have some great woodworking links to share with your mates at the Club, don't stash them away now, drop a line to the Editor to share the good oil around!

*....thanks for contributions to Bill's column [...Ed]*

## Mac Hoogenboom restores windup table

A big "Thanks" to **Marinus "Mac" Hoogenboom** (left) seen here with some help from **Tony Deabe** on the day, working out how to rejuvenate this lovely old dining table with wind-out mechanism. No doubting 'Mac' to put his hand up to take on this challenge for someone who heard the Club can tackle things like this ..... but please, don't go making a habit of such enquiries!

## Events in the BIG WOODIES WORLD....

Many thanks to **Alison Dews** of the **Council of Woodwork Clubs** for her regular, up-to-date list of events happening around Australia. They can be viewed here:  
<https://www.councilwoodworkclubs.org/events>

- **WORKING WITH WOOD (Melb) 2018** 7-9<sup>th</sup> Sept 2018

**NEW VENUE:** Seaworks, Maritime Precinct,  
82 Nelson Place, Williamstown

- **WOOD DUST (Aust Int'l Timber and W/work**  
**Bungendore & Queanbeyan NSW** 17-21 Oct 2018

**Also: another good resource for up-coming events:**

<http://cwsonline.com.au> and see:  
<https://www.cwsonline.com.au/news--upcoming-events.html>  
 (Jim Carroll's list) "Events & News"

For a complete list of 'TurnAbout' events: See **Feb 2018** edition of "Ingrained"

*[....thanks for tips from: Peter Vermaas]*

## CLUB Equipment FOR SALE by TENDER

\*\*\* Nothing this month \*\*

**Process:** Lodge your submission to the committee, putting your name and best offered price in an **envelope in the MAIL SHUTE by the club doorway**. Some items have a **MINIMUM reserve**.

## CLUB would like to thank Pozzobon family for timber

A big thanks to **John and Nadia Pozzobon** for the kind donation of timber to the Club. Downsizing Nadia's Mother's family home, has provided some very appreciated timbers for club projects – thanks!

Nadia's late father: **"Joe"** was a craftsman, with great talent and ability for making family furniture all his life. The family home boasts fine staircases, timber doors, and all manner of finely made furniture.

**Proudly Sponsored by**

**Ferntree Gully**

**Community Bank® branch and**  
**Rowville branch of Bendigo Bank**

**SAFETY Corner**

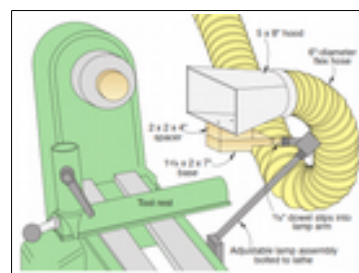

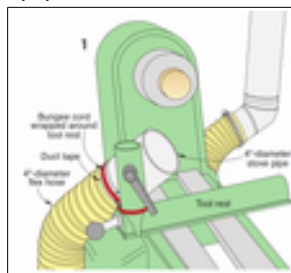

Knox "Woodies"

**SAFETY CORNER****"Safety is no accident!"**

Building on this month's feature article, I thought I would offer a few thoughts on some of the unique workshop safety issues encountered by Wood Turners. I am not a practicing Wood Turner myself so I confess to asking Club experts for help, while Mr Google may have also played his part.

In General Woodworking, a workpiece is restrained in some way and guided into contact with a high speed rotating cutter. In Wood Turning the reverse is the case. It is the workpiece that rotates at speed in a lathe and a cutting tool is manually held against the rotating workpiece by an operator. This reversal of roles introduces new risks for the operator.

Firstly, all the major operator risks found in General Woodworking are also found in Wood Turning. These are planning and preparing, good housekeeping, concentration, appropriate clothing and of course, dust extraction and PPE – Personal Protection Equipment.

Efficient dust collection is made more difficult around a lathe, because of limited access plus the amount of waste being removed. Dust collecting points can be mounted (as shown) or a dust hood on a telescopic arm are the most efficient collectors at the source of the dust.

PPE (Personal Protection Equipment) – An operator's sight, hearing, lungs and hands are the senses at most risk during Wood Turning. Sometimes an irregular workpiece is chosen for its attractive features, one made up of laminated pieces or simply one with a square or rectangular profile. These choices can be the cause of larger pieces breaking away and being thrown back at an operator. Operators (and spectators) should stand away from the "red zones". These zones are directly in front of (and behind) the workpiece. Ideally, it is recommended that operators wear a full face shield and one that covers the scalp. It is also best an irregular workpiece is trimmed of waste before mounting in the lathe and tool rest clearance should always be checked before beginning work. Turning should be paused often to check for faults as they might become visible in the surface.

When sanding a workpiece still mounted in the lathe, the tool rest should be removed for better access. It might also be tempting to use an application cloth to apply a finish product, but the risk of a cloth being caught makes this dangerous practice.

For those familiar with our Facebook page, please check out the FILES <tab> for two more expansive and knowledgeable articles on safety for wood turners.

Time to "turn the page", my readers!

... John Freshney

BE-IN-IT exhibition 26<sup>th</sup> Aug 2018

Right: Judges: **Paddy McCann**, and **Cliff Walsh** with with President, Hughie Gaynor (centre), and **Karin Orpen**.

A huge Woodies 'Thankyou' to the judges for their time, care and constructive comments for the day.

And to our Secretary, **Harry Deschepper**, for his time for the preparation of certificates on the day. The club well recognises **Eric Butterfield** unfortunately in Rehab at the time, for his efforts in planning Be-In-It.

Appreciation to: **James Bennett of POP's Shed** in Chirnside for sponsoring encouragement awards again.

To **Jeff Smart and his wife, Pamela, and Noel Rippon (right)**, thanks for the wonderful spread of afternoon tea and lunch for the judges.

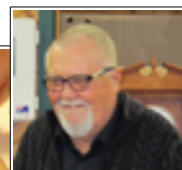

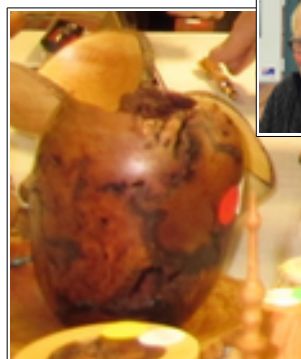

And thanks too, for all the hard work by **many members on Friday Night and Saturday** for preparing the clubrooms and setting up all the exhibits.

**You all made the BE-IN-IT day a terrific success!**

BE-IN-IT exhibition 26<sup>th</sup> Aug 2018

**Congratulations to BEST IN SHOW winners: Lindsay Rotherham (left) and Andre Cook (right)**

BE-IN-IT exhibition 26<sup>th</sup> Aug 2018

BE-IN-IT exhibition 26<sup>th</sup> Aug 2018

## Workshop Notes - "members helping members"

**Phil Spencer** provides inspiring technical articles for this regular TECHNICAL column. **What's your WIP presently?** Drop a line with pictures to the Club via [news@knoxwoodies.org.au](mailto:news@knoxwoodies.org.au) to include in the Newsletter to share your experiences.

This month, with the large article on Woodturning, we're letting Phil take a rest and do some more magic with his camera!

...[Phil]

Great to see **Joe Semenow** attending the Club again! **Lynette Hartley** took this snap, as Joe came down with his daughter to check how the Rocking Horse members were doing on 27<sup>th</sup> July. **Onya Joe!!**

Lynette's horse was finished off in time for the BE-IN-IT competition.

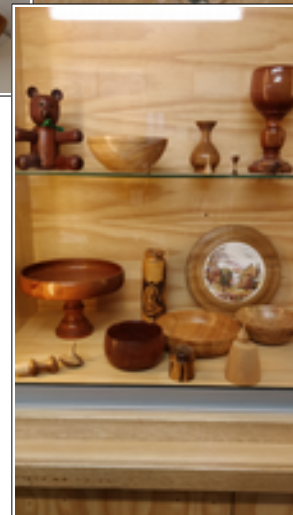

## Spotlight on WOODTURNING Group (Monday morning)

This month. We're looking back into how/when the roots of the **WOODWORKING Group** came about, and how the many years of professional guidance by so many talented members have seen this aspect of woodworking flourish in the Club. In 2018, 30 years after the club was founded, this group meets on Monday mornings, under the guidance of **Henk Eyssens**. Henk follows many talented members making this a successful group, from the start, with: **Alf Stephens, David Howell, Ivor Davies, Bruce Allen** during the 1990's. **Bob Plant** spirited the club into having regular days set aside, and this is when the Group got its identity as a regular activity in 2001, together with **John Emptage, Frank O'Connor** and **John Hooke**. **Joyce Brown** and **Jan Brown** were regular contributors to this group, in the mid 1990's and early 2000's leading up to **Henk Eyssens** steering the ship with **John Emptage** from 2008-2011 and then **Henk** to the present day.

Before sharing the research into all this with members, it is with some anticipation, that **there will be more to the history** about this, and those many hard working members who were part of this over the decades. So, as this '**draft**' is shared, the intention is to edit it further and upload a refreshed edition to the Cloud for posterity. So, please, if members can pinpoint anything overlooked, please email Gaz at [news@knoxwoodies.org.au](mailto:news@knoxwoodies.org.au)

## What is WOODTURNING?

Simply put: It is the skill of using one of these **LATHES**, to turn up or turn out, any number of shaped timber objects like these many examples in the Club's show cases.

The lathe was donated by **Kevin Guilders** in 2012 and sits proudly in the Club's library.

## Spotlight on WOODTURNING Group (Monday morning)

## History of WOODTURNING at KDWC

The GROUP today, is as active and enthusiastic as it was from day one, back in **October 1988** when the club was formed by our **late founder: Alf Stephens**. But **today in 2018**, almost 30 years on, the Club boasts a significant number of lathes in its own purpose built room. Reaching this level, was no mean feat, and the acquisition of equipment was facilitated by many a generous provider, or funded by donations.

**May 1989** - \$2000 donation gets **first GOLDING lathes**.

**June 1989** saw Woodturning Classes being provided to the Club from **Bob Morrison**, member of Dandenong Woodworkers, Assoc and the Victorian Woodworkers Assoc

**April 1990** **Alf Stephens** took 2 lathes to Knox Festival to turn up some timber into Veranda posts.

**May 1990**, Dandenong Woodworkers invited the FTG Club to see **Gordon Griffith** demo turning lamp bases. Our own club member, **Tony Neve** demonstrated the turning of lace bobbins

**June 1990** saw late President **David Howell** along with **Peter Lorimer**, performing woodturning demos at Tecoma Primary School and **Hamish Hill** was offering fellow members to obtain offcuts for their woodturning, avoiding being more firewood!

**Nov 1990** – **Ivor Davies** takes on the newsletter Editor role for 2 years from **John Fearn** and also gets stuck into helping the club get equipped with Nova Scroll chucks and useful accessories for the woodturners, his passion.

**March 1991**, the Editor [**Gaz**] enjoys recalling meeting **Serge Meilak** at the KNOX Festival seeing a lathe in action.... that novelty of seeing shavings flying off the chisel was enough to get excited about and become a member – typical of many members who came to learn of the club at such festivals.

## Spotlight on WOODTURNING Group (Monday morning)

**Mar 1991** – **David Jamie** Knox Festival (**Dick Kors** background)

**April 1991** saw a unique demo of a Symtec flatbed lathe.....

**Sept 1991** a guest speaker: **Keith Little**, a well known woodturner from Montmorency, founder of Yarra Woodturners, demonstrated spindle-turning.

**Nov 1991** announced **Bob Morrison** would demo the turning of a lidded box in December meeting.

**Dec 1991** saw the first **Bill Gillingham** Award presented to member: **Keith Griffin**, in part for his "inside-out" turning.

**April 1992** mentioned the March meeting had a display of a mini-lathe from member, and then secretary: **Alex Davis**. And typical of previous years at festival,s mention of **Sue Wood** capturing the imagination of festival goers with her woodturning skills. That year Yarra Turners and Forest Hill Woodturners organised a National Woodturning Competition/Exhibition/Sale at Nunawading Civic Centre 31/5/92

**Oct 1992** Ingrained mentioned that the club now had **3 wood lathes in the workshop**.

**Dec 1993** Ingrained had a safety article pertinent to woodturning by former member, **Ray Easthope**.

**Ivor Davies** was a fine woodturner in the club, and had his own filming/training studio at home. (and also ran this newsletter). Ivor would be always active at demonstrations for the Club, and the two festivals each year.

**Spotlight on WOODTURNING Group (Monday morning)**

**Mar 1994** Ingrained published an interesting set of statistics about members main woodworking interests, and Woodturning was ranked highest at 86%.

**May 1994** documented the Knox Festival Woodturning competition, with **Vic Oberg** (member) and **Tom Coglan** (early Newsletter editor) equal first, and a special mention of our late **David Howell** (former president).

**Nov 1994** **Bruce Allen** was doing woodturning demonstrations at Mitre10 Studpark.

**April 1995**, the club enjoyed a woodturning evening with Vic Wood in Burwood.

**July 1995**: A woodturning demo by **Wally Rowan** of Caton Woodturning. (16 members attending)

**Dec 1995** - yes, there are lathes in the early main shed. (on right)

Late **Peter Johnston**, former member and Public Officer, and Treasurer seen above

**May 1997** saw the reporting of the purchase of a small woodturning lathe for the club. (**A Record lathe at cost of \$700**)

note: June 1997 Ingrained has photos of 14 of the original 69 foundation members.

**Aug 1997** - another woodturning demo, this one organised by **Bruce Allen** to have **Sue Patten** demonstrate miniatures.

**Sep 2000** Woodturning demo by **Doug Camps** - turning a toy.

**Bob Plant** (became newsletter editor March 2001, from **Tom Coglan**)

**Spotlight on WOODTURNING Group (Monday morning)**

**June 2001** An initiative by **Bob Plant** to set aside a **Woodturner's Interest Group** to meet **2nd and 4th Wednesday each month**. (members set the pace quick smart!)

### Woodturner's Interest Group

The interest in the woodturning group is gaining momentum as the weeks go by. At our last Wednesday get together we had 10 members on quite a wet night which was great. There is always the problem of lack of lathes, this will be helped soon when the new Woodfast is in action and the parts arrive for the damaged lathe.

To sort out the format of the group, and the direction we intend to take, there will be a short meeting on Wednesday 25<sup>th</sup> of July.

There is also some interest in a day group and possibly a ladies group. If any ladies are interested, Jan Brown has agreed to coordinate a ladies group. She can be contacted on 9762 1063.

If you are interested in a set of chisels, then check the notice board. Carbatec have sets of Record chisels at half price. If you are interested these are certainly worth a look.

**Aug 2001 – new lathe arrives**

### Woodturners Interest Group

The woodturners are enthusiastically working away on Wednesday evenings with an average of about 8 members present. The current project that we are working on is rattle dolls for the club's toy making project.

While there is not enough lathes for all, members are busying themselves in other related wood turning activities.

There is a strong interest in other groups starting up, particularly during the day. If you are interested contact Bob Plant (9754 592) or Jan Brown (9762

*August 2001*

**SNIPPET:** (recalled by current President **Hughie Gaynor**).

In the late 1990's before Founder, **Alf Stephens** passed away (18/2/99), **Alf** would enjoy making pens on the yellow mini-lathe ('Record') which had been relocated to inside the main clubrooms. It allowed him to be comfortable, and remain competent, continuing to pursue his love of woodturning.

## Spotlight on WOODTURNING Group (Monday morning)

Sep 2001 Woodturning Interest Group adds Monday Morning sessions to the calendar...

**Woodturners Interest Group**

The woodturner's are still working away every Wednesday evening and enjoying themselves, there is always room for more interested members.

Following up the interest in starting a day woodturning group the committee has set a side Monday mornings for it to take place. It is planned to run it on the second and fourth Mondays of the month starting at 9.30am. The first meeting will be on Monday 10<sup>th</sup> September. The session will be for woodturning only. If you are interested contact Bob Plant (9754 592) or Jan Brown (9762 1063) or come on the day.

The Turn Around Down Under at Phillip Island in early September and three of our members Jan Brown, Reiner Lolkema and myself will be participating over the weekend. I am sure there will be lots of ideas and stories will come out of it, a report on the happenings will be in next months *Ingrained*.

Happy turning  
Bob Plant

\*\*\*\*\*

Oct 2001 John Emptage donated a shed for storing woodturning timber in, and Monday sessions were up and running. Frank O'Connor started running the Wednesday Night sessions.

**Woodturner's Interest Group**

Both of the woodturning groups are moving a long quite well. The Monday group has had 6 and 9 members enthusiastically participating since we started, which is great. Most of the group have had very little or no woodturning and are revelling in the experience (no big dig ins yet). Thanks to Jan Brown and Vic Oberg for their assistance.

If you are interested in turning please pop in when any of the sessions are on and see what is going on and perhaps have a go.

We recently obtained some suitable turning timber from the Warrigal woodies, it is mainly blackwood. If interested in any, have a word with Charles Bruckner, Doug Dell or myself.

Thanks to John Emptage for the donation of a small shed that we will be able to store our woodturning timber in. In the near future we will be looking for some assistance from the woodturners to put the shed up and get it operational.

Bob Plant

**Regular Club Group Activities**

## Spotlight on WOODTURNING Group (Monday morning)

Nov 2001 - Ronnie Ralph and Alan Derbyshire donated turning timber to kick the group along with materials.

Dec 2001 the "John's Shed" is up..... for wood storage.

**Turner's Talk**

The interest in wood turning continues to grow, particularly on Mondays. It is great to see the new turners starting to experiment and try new ideas. We have about ten enthusiastic turners every week, while we don't have lathes for all; there is always wood to prepare for turning. Morning tea has become an important part of our program, as well as a "cuppa" we have a "show and tell" session and discuss ideas and sources of timber and turners needs.

If you are interested drop in and see what is going on, our next session will be after the Christmas break on Monday 28<sup>th</sup> January.

While the Wednesday night is a little quiet at the moment, we will look to change that in the New Year. If you want to know what is happening, contact Frank O'Connor (9879 7512)

While Melbourne may have "Jeff's Sheds" we now have "John's Shed", our wood storage shed is now up and ready for use, thanks to John Emptage for supplying helping to erect the shed and to Jeff Burrows and Alan Derbyshire and others that were involved for their Hard work.

June 2002 there was a woodturning demonstration by Guilio Marcalonga and at this point, John Hooke was active in assisting with Monday/Wednesday sessions for woodturners in the Club.

**Guilio Marcalonga's Demonstration**

Guilio demonstrated how to turn a variety of articles and gave us tips on making wood turning easier. One of the highlights I thought was the lidded cylindrical box he made with the lid having a contrasting timber inlay. Guilio certainly has the gift of the gab and the ability to entertain as well as pass on valuable information about the craft he so obviously enjoys! Those who attended agreed that it was a worthwhile day and we all learned something from Guilio.

Thanks to those who arranged the visit and did the setting up and the members who were responsible for the installation of the video equipment, making it so easy to watch what Guilio was doing. Thanks to Peter, Paddy & Pat who gave generously of there time and provided us with such a lovely lunch. Judging by the enthusiasm of members who attended, more demos like this are a certainty!

Jan Brown

Spotlight on WOODTURNING Group (Monday morning)

Dec 2002 saw some future planning being put into place.

### Turner's Talk

We have formed a planning team for woodturning, the purpose of the group is to coordinate turning in the club and plan future developments. The members of the team

are Jan Brown, John Hookes, Vic Oberg, Jim Marshall, Frank O'Connor and Bob Plant, if you are interested in joining or have any ideas, please contact one of the members.

We will still be having our woodturning day on Monday from 9.00am to 2.00pm but plan to move the Wednesday evening session to Tuesday evenings. We plan to run a program with regular demonstrations by club members on different aspects of turning and propose to have different activities each week of the month.

At this stage we are looking at:-

- Week 1 Member's projects
- Week 2 Planned project
- Week3 Turning toys for Christmas appeal
- Week 4 Preparation of turning wood and workshop and lathe maintenance and members projects

As we progress this may change to suit our needs.

If you have been up the club recently you will have noticed that our wood storage shed is well under way. We plan to be in our new turning room by the end of January; this should ease our space problems in our machine room. If you can help with this work, please contact a team member, your help will be greatly appreciated.

Bob Plant

Spotlight on WOODTURNING Group (Monday morning)

Feb 2003 reported the Xmas breakup, and here's a rare, relaxed view of Bob Plant..... (left)

More familiar faces all looking very relaxed at the BBQ.

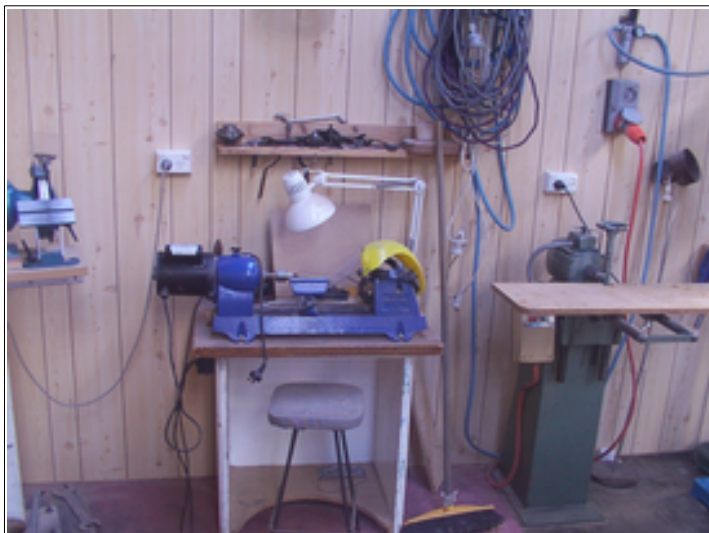

Turners sessions shifted from Wednesday fortnight to Tuesday weekly as well as Monday mornings.....

March 2003 - Woodturners shift to their own room behind the main workshop

### Turner's Talk

February has been quite a busy month with the woodturners at the club, not a lot of turning, but a lot of work on our new turning room. With our lathes now working, it is time to get down to some serious

turning. Thanks to the members that have really put in to make this happen. We still have our extension to finish, this will be done on Monday and Tuesday, the 17<sup>th</sup> & 18<sup>th</sup> of March under the guidance of Frank O'Connor.

Our Monday and Tuesday turning groups are back in action with several new turners having a go at making lots of shavings (and of course the occasional 'dig ins').

## Spotlight on WOODTURNING Group (Monday morning)

June 2003, **Bob Plant** arranged other clubs and KDWC members to another demonstration by **Guilio Marcolonga**. Visitors from Waverley Woodworkers and Philip Island Clubs attended.

The woodturners had moved into their own room, making the workshop space freer.

## INGRAINED

Michael Talbot has a project underway and was seen cutting timber recently.

Have you been into the Club lately to see the new layout? The Woodturners lathe room is well laid out with plenty of room to move about.

Paddy McCann is proudly showing the main equipment room. It is amazing how tidy and uncluttered it now looks and how clean it can be kept.

Paul Lucas

Max Smith is a new member this month and is already

eagerly trying his skill at wood turning under the watchful and instructive eye of John Emptage.

Another new member this month is Teao Teao from the Cook Islands. He can be seen spoke shaving the

**Snippet:** Paddy McCann recalls 6 members: **Frank O'Connor**, **Alf Stephens**, two others, and himself (as they say!)... attending a 6-week course to build your own lathe., around 93-94.

## Spotlight on WOODTURNING Group (Monday morning)

**SNIPPET: (Recollections from Hughie Gaynor)** The purpose built Woodturning shed at the rear of the main workshop, was achieved thanks to the help of **Frank O'Connor**. Frank who well skilled at all manner of things, including welding, boilermaking, transport, installation work – you name it! - was in the employ of a firm specialising in she/garages/carports. With their generosity and Frank's foresight, a considerable amount of steel offcuts and roofing materials enabled the construction of the woodturning shed as a rear annex to the machine shop. A google view of the roof reminds us of this, with the multi-colored roofing materials! With typical help from **Bill Orpen**, and some working bees at the time, the woodturning shed became a reality. Frank with assistance of another member, also arranged a good deal on concreting it too.

Vic Oberg showed members a bowl he wood turned recently that contained a pattern from using 2 contrasting coloured timbers – Geluton and Qld Red Cedar). He can be justly proud of the finished bowl.

John Emptage has recently taken an interest in creating geometric patterns using contrasting wood pieces and then turning articles out of the joined timber. He is pictured with his first effort and everyone who has seen it is quite impressed. If you are interested in this kind of woodwork talk to John as he would like to gather a small group to learn to make the jigs and produce fascinating patterned articles.

5 woodturning members have started a special turning course with Bob Morrison from January for 3 hours per week over a 6 week period. They are already impressed with what they are learning.

Paul Lucas

Feb 2004 - **Vic Oberg** & **John Emptage** showing off their handwork (above) and **Peter Jordon**, below

Peter Jordan is proudly showing the lovely pestle and mortar he recently turned. The pestle is in golden ash and the mortar is in English ash. Do you remember which piece is the pestle and which is the mortar?

Remember to mark your diary for the Neil Scobie session at the Club on Sunday 24<sup>th</sup> October, if you are interested. The cost will be \$35. This event will

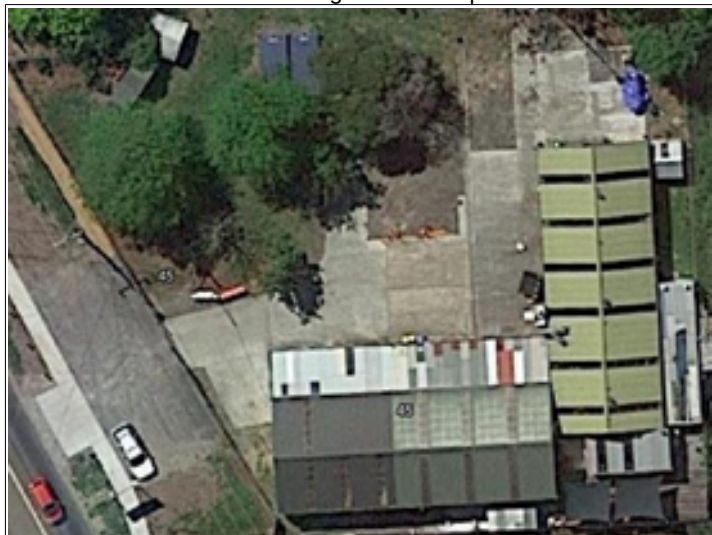

proceed even though it clashes with the Stringybark Festival activity.

Paul Lucas

## Spotlight on WOODTURNING Group (Monday morning)

Colourful roof materials showing from aerial photo of Clubrooms.

Aug 2004 - **Frank O'Connor** steps up to being **Treasurer** as well as **running Tuesday Woodturning sessions**.

### Around the Club

As Paddy mentioned, we are very fortunate to have Frank O'Connor take over the Treasurer's position from Joyce Brown. Frank is pictured already getting involved in the Club financial figures that he was glad to see were in good shape from Joyce's work.

Oct 2004 - lots of woodturners at work.....

### Turners' Talk

Lindsay Rotherham is turning a small box and lid from red gum. He did the smart thing and rather than try to fret saw cut the fine pattern in the lid he had it laser cut professionally – and it certainly made the finished lid look great. I don't know if he finally finished the project as the box was giving problems with "chip outs" when I left!!

John Hooke has been working on this large bowl for several weeks. I always know when it is on the lathe as you can smell the lovely Camphor wood aroma. He says he finally finished it but I never did see the end result. Perhaps he will bring it in and I can photograph it for all to see.

## Spotlight on WOODTURNING Group (Monday morning)

Nov 2004 - **Neil Scobie** woodturning demonstration arranged by **Bob Plant**.

Also on Sunday 24<sup>th</sup>, we had our Neil Scobie Woodturning Demonstration attended by 35 members and visitors at the Clubrooms, organised by the Woodturning Group. All had a very successful and enjoyable day.

Our thanks to Bob Plant for organising the day. Thank you Bob. The photo shows the pieces he demonstrated how to woodturn and carve to achieve dramatic items.

Dec 2004 - tips'n'tricks and experiences shared by **John Hooke**

You may remember I showed a photo of John Hooke spending what seemed weeks, turning a bowl in camphor wood. Well, here is the final bowl. It is quite a bit smaller than what he originally planned due to the usual problems that arose that meant the bowl had to be altered. His contingency was that if problems had kept occurring he was going to end up with an egg cup instead of a bowl!!

Joyce Brown has convinced many of us to wear a protective face mask when woodturning, as she recently avoided a nasty injury when a chisel flew up and hit her mask, instead of her face or neck.

Spotlight on WOODTURNING Group (Monday morning)

Feb 2005 - example of the mini-lathe in use

### Turners Talk

Neville Hargreaves is enjoying turning a pen on the mini lathe

The Monday morning and Tuesday evening turning sessions welcome new enthusiasts at any time – beginners are particularly encouraged.

Nov 2005 - **Joyce Brown** recognised as Member of the Year and recipient of the **Bill Gillingham Award**.

Joyce Brown is seen proudly receiving the Bill Gillingham Memorial Award for Outstanding Services to the Club in 2005, from Jean Gillingham. Joyce is the first woman to win this award. Well done, Joyce!

Picture by William Ireland

Spotlight on WOODTURNING Group (Monday morning)

May 2006 - **safety first!**

### Turner's Talk

It is great to see Murray White wearing protective gear while working on the lathe. Wearing this may be cumbersome at times but it is safer and protects your health.

Murray is an active turner at the Monday turning sessions.

Several newer members (including David Light and Terry Button) are interested

May 2006

## Spotlight on WOODTURNING Group (Monday morning)

July 2006 - show'n'tell of neighbor: John Robinson's lighthouse turning.

**Gary Pope**

At the last meeting, Gary displayed the very artistic lighthouse built by a friend of his father together with contributions from Gary's father. He gave an extremely entertaining account of how they built this one and more than 30 others over the years.

## Spotlight on WOODTURNING Group (Monday morning)

March 2007 John Emptage, forever the helper.....

**Turners Talk**

Frank Johnson is learning and improving his turning skills under the watchful eye of John Emptage at the ever popular Monday morning woodturning session. Why not join them or attend the Tuesday evening turning session with Frank O'Connor to work

with others and see what others are achieving.

April 2007 - Turning shed is now lined.....

**Turners Talk**

Adrian Doyle is proudly putting the final polishing touches to a lovely bowl he has just turned at the Monday morning woodturning session. Why not join them or attend the Tuesday evening turning session to work with others and see what others are achieving. With the turning shed now lined it looks more like a "room" than a shed.

Oct 2006 Doug Dell has a treddle session on this 1880 model....

No, while they have an original building they do use modern lathes! This peddle model is in working order for

demonstrations. Joyce Brown and others tried it out for doing some wood turning. For those watching, everyone agreed that having to peddle while holding the chisel steady would have taken considerable practise to achieve fine wood turned pieces in the years gone by.

It is good to see Frank O'Connor finally getting to do some woodturning projects for himself. There is always the danger that when you get involved in Club activities helping others you seldom get time to devote to your own interests. Frank is fully fitted with safety helmet to protect himself. Good on you Frank!!

See it running at:

<http://webcontent.knoxwoodies.org.au/webpics/1880going.wmv>

## Spotlight on WOODTURNING Group (Monday morning)

April 2007 at Knox Festival

his son in constructing a toy with him and showing him the fundamentals of working with wood.

Everyone likes watching the shavings fly as an experienced woodturner like Peter Jordan creates a bowl, or whatever.

May 2007 - more machines in action.....

**Turners Talk**

Frank Johnson is intent on putting the final sanding touches on a pine turning he is working on.

Peter Cox is proud of the fine piece of red gum he acquired and is now trimming up on the band saw prior to turning it into a bowl. Join the friendly turning group on Monday mornings

under the guidance of John Emptage.

## Spotlight on WOODTURNING Group (Monday morning)

June 2007 - making complex turnings with Lindsay Rotherham

**Turners talk**

Lindsay Rotherham is justly proud of his latest off-centre turned sugar gum piece that also incorporated some deft carving to produce a unique and highly original artistic feature to decorate a table or mantelpiece.

and some serious bowl work by Peter Cox

Peter Cox is seen here putting the finishing touches to a beautiful 360mm diameter red gum bowl that has a lovely grain that adds character to the finished product.

Join the Woodturners on Monday morning and Tuesday evenings.

## Spotlight on WOODTURNING Group (Monday morning)

July 2008 - Woodturning room looking spick'n'span....

## INGRAINED

that. But most importantly it is a credit to the leadership and direction from John Emptage to achieve it and maintain it.

Well done by all the Woodturners!!

DEC 2008 - **Henk Eyssens** (far below in grey coat) joins the club and quickly settles into woodturning group.... Notice **Joyce Brown** looking on, a brilliant woodturner and helper to this group over many years.

Here is a group of turners avidly watching our new member Henk Eyssens skilfully complete a rapid turning job.

## Spotlight on WOODTURNING Group (Monday morning)

April 2009 Demonstrating at the **Basin Music Festival**, are: **Henk Eyssens** and **Anne-Maria Plevier**

At the Basin Music Festival on the 22<sup>nd</sup> March they had a similarly successful day demonstrating turning and selling items made by our members. The photograph shows Anne-Maria Plevier turning spinning tops while Henk Eysenns gets ready to have a "turn".

Feb 2010 Sessions run by **John Emptage** (Monday morning) and **Bruce Allen** (Tuesday nights)

Sadly, **John** fell sick at this point, **Joyce Brown** stepped down from Festival sales, and **Anne-Maria Plevier** stepped in.

Mar 2010 The **Basin Music Festival** - woodturning demo.

### Basin Music festival

The Knox Woodies were represented at the Basin Music Festival, held on March 25th, by four members who participated in a wood turning display and helped with the sale of wood turned items. A good day was had by all.

Photos: Bill Ireland

## Spotlight on WOODTURNING Group (Monday morning)

Feb 2011 - **Two additional lathes added**

The Club has obtained some new (albeit used) equipment over the Christmas break. Two new lathes have been added to the turning room, a Woodfast and a Tough. These are both 3 phase, and will supplement the existing Woodfast which is in the process of being converted also to 3 phase with a motor kindly donated by Peter Sleeman. A 3 phase supply will need to be run to the turning room before these units can be made operational. In addition, a WMS lathe has been donated to the Club, along with a Torit Vibra Shake VS-1500 dust collector. Both units will be installed in the near future.

April 2011 at **Ferntree Gully** - **Bill Ireland, Eric Butterfield and Henk Eyssens** demonstrating

**June 2011** **John Emptage** back in action for Mondays again....

April 2012 - At the **Basin Music Festival** again, with **Henk Eyssens**, **Eric Butterfield** and **Bill Ireland**

May 2012 - **Peter Sleeman** installing **dust extraction chutes** on the lathes

## Spotlight on WOODTURNING Group (Monday morning)

Nov 2013 – **Henk Eyssens** efforts with the **CFA**

**Henk** is not just the current leader of the Woodturning group these days, but a well respected Volunteer member of the Clematis CFA, and holder of a coveted National Emergency Medal for the role he played in the Black Saturday fires. **Henk** doesn't mess around when something needs constructing – that's for sure!

Some fond recollections from current day members.....

Interviewing **Peter Sleeman**, former President, and long time member, recalls:

- **John Emptage**
- **Joyce Brown**
- **Jan Brown**
- **Henk Eyssens**  
(see article on 25th anniversary edition 20131101.pdf, and his efforts for the CFA)
- **Peter Horsburgh** and **Ted Bricker** historically 'constructively' argued about the role of woodturning.

**Eric Butterfield**, long time member, Projects Manager, and Membership Manager, recalls....

- Ray Norton and how he spoke fondly of Cliff Walsh, and his giving talk on woodturning

**Serge Meilak**, foundation member, past present and Life Member, reminds us of the key roles of great turners in the club in early days:

- **Steve and Fiona Ross** (Fiona drawing raffle 1989)

## HUMOR

Nice news article in Knox Leader Newspaper Aug 11, 2015, about turning up parts for toys with [Yvonne McGill](#), [Karen Button](#), [Colin Stewart](#) and [John Gallant](#).

### How To Stop Church Gossip

Mildred, the church gossip, and self-appointed monitor of the church's morals, kept sticking her nose into other people's business.

Several members did not approve of her extra-curricular activities, but feared her enough to maintain their silence.

She made a mistake, however, when she accused Frank, a new member, of being an alcoholic after she saw his old pickup parked in front of the town's only bar one afternoon.

She emphatically told Frank (and several others) that everyone seeing it there would know what he was doing!

Frank, a man of few words, stared at her for a moment and just turned and walked away. He didn't explain, defend, or deny.  
He said nothing..

Later that evening, Frank quietly parked his pickup in front of Mildred's house, walked home .... and left it there all night.

(You gotta love Frank!)

.... thanks for your contributions! .....[Ed]
